Wow! So exciting to gather with 400 organizers! Greetings from Mary Jean Regoli from Bloomington, IN

19:41:25 Robin Gustafson

I love that Zoom is still new for some people after 4 months of quarantine!

19:42:00 susie shoaf san francisco

I don't see your screen....you're saying 'next slide'....but not seeing anything.

19:43:38 Julia Bennett

Not able to see the speaker. Is that intended?

It won't switch to just videos as long as a screen is sharing but I think it should be possible to switch how many videos are displayed next to the shared screen?

19:44:07 Robin Gustafson

I think that in Speaker View you should just see the powerpoint slides

19:44:18 Orly Krasner

Julia—Try upper right grid. That should put you in speaker view as well as the slide.

19:44:24 Sarah Pilzer, CDSS (she/they)

If you are having trouble seeing the viewer and the slides at the same time go to the top of the screen and click on "View Options" and then select "Side-by-Side" mode.

19:44:37 Deb (Valley Folk Muisic)

Also look at settings: "View Options"

19:44:46 Deb (Valley Folk Muisic)

on top right

19:45:35 Marlene McCall

I'm having lots of technical issues with View, and I'm an experienced Zoom attendee. Can't find Gallery View, can't see speaker. I can see screen share, of agenda, but I'd rather see the speaker.

19:46:42 Jim Morgan Pittsburgh

On PCs the View options appear at the top of the screen if you move your cursor up there.

19:46:58 Eric Black (BACDS)

In the Zoom menu bar at the top of the Zoom window, where it says "You are viewing Nicki Perez..." there's a View Options pull-down menu. Choose side-by-side (at the bottom)

19:47:11 Sarah Pilzer, CDSS (she/they)

Here is a link to troubleshooting the split screen issue:

[https://support.zoom.us/hc/en-us/articles/115004802843-Side-by-side-Mode-for-screen-sharing#h\\_9f5512dd-2840-49f9-846b-a6a133a5c54e](https://support.zoom.us/hc/en-us/articles/115004802843-Side-by-side-Mode-for-screen-sharing#h_9f5512dd-2840-49f9-846b-a6a133a5c54e)

19:47:19 Eric Black (BACDS)

That Zoom menu bar appears if you hover near the top (you already know that, Marlene!)

19:47:33 Maggie Bye

Thanks Eric.

19:47:39 Deb (Valley Folk Muisic)

You can make the line between the speaker and their screen move left or right like in a spread sheet

19:47:44 Midge Olsen

Ours has said that the insurance wouldn't kick in unless our business or a neighboring business was damaged in the riots...

19:48:15 Sarah Pilzer, CDSS (she/they)

If you select "side-by-side" from View Options it should put the speaker and slide next to each other. If you still can't see the speaker you might need to drag the separator bar to make one side or the other bigger.

19:48:42 Sarah Pilzer, CDSS (she/they)

Yes, what Deb said - thank you!

19:49:33 Steve Damon

Thank you for providing his session. Gill, MA; not far from CDSS home.

19:50:54 Doug Plummer

Latest news I'm hearing is that a consensus is developing that airborne transmission is a significant factor.

19:51:21 Eric Black (BACDS)

Yes, aerosols. I am convinced that is how I was infected.

19:52:31 Suzanne Frank

you can buy Filti online to make your own N 95 masks

19:53:55 Colleen Zenger

Also, aerosols in indoor places is much more problematic than outdoor.

19:54:59 Michael Fuerst

Some well tested 1960's technology can enable us to start dancing again quickly.

<https://www.youtube.com/watch?v=HWtPPWi6OMQ>

19:55:10 Robert Lindauer

If we were trying to invent an activity that's most effective at spreading the virus, contra would be it

19:55:14 Leslie Phillips

How does the virus become aerosolized?

19:55:20 Robin Gustafson

Katy's facial expressions!

19:55:32 Richard Aigen

What are examples of aerosol spreads? Is it Air Conditioners? What else?

19:55:33 Alex Burka (Philadelphia, he/him)

Can the host mute interruptions please

19:55:37 susie shoaf san francisco

can people hold off chatting during talk

19:56:31 Lisa Sieverts

Agree 100%

19:56:39 Kalia Kliban

I agree compelled

19:56:49 Edmund Robinson

Thank You, Amy!

19:56:57 Darlene Hamilton

Yes I would like a transcript as well

19:57:18 Laurie Pietravalle West Michigan

great to see you Amy. thanks.

19:57:20 Sarah Pilzer, CDSS (she/they)

We will have a transcript of the chat and a recording of the video. We can work on making a transcription of the video recording but that will take a little longer to get posted.

19:57:32 Darlene Hamilton

Thank you.

19:57:34 Laurie Pietravalle West Michigan

We in West MI agree

19:57:51 Mady Newfield, Chicagoland

Thank you for making this all available afterwards, as well!

20:00:14 Laurie Pietravalle West Michigan

What percentage of those tested positive are being contact traced?

20:00:18 Julia Bennett

To organizers - I'm a transcriptionist and if you are really stuck I could volunteer to transcribe on the weekend.... Julia in Toronto

20:00:28 Gabriel Holmes

have you had people who were concerned about their cats?

20:01:05 Sarah Pilzer, CDSS (she/they)

@Julia thank you for the offer. We may get in touch :-)

20:01:19 Gerald Blum

Will 1 of the speakers address testing for COVID?

20:02:09 Katy German, CDSS (she/her)

Gerald, not specifically on this web chat. Let me know what you have in mind: [katy@cdss.org](mailto:katy@cdss.org)

20:02:46 susie shoaf san francisco

can you chat privately, so chat is not showing up for everyone please

20:04:02 Laurie Pietravalle West Michigan

I don't think the Health Dept keeps up.

20:04:32 Aileen Poehls

If you been contact traced and you get a negative test, are you free of the 14 day quarantine?

20:05:10 Martin Lodahl

Right on, Michael. Right on.

20:08:18 Jeanne Dickman

I've heard gathering referred to as 'Super Spreader Situations'

20:11:19 Pat Gingrich

20:13:53 Owen Morrison

That was such a great week!

20:14:00 Kathy Stagl

that is known cases in PA probably were more

20:15:46 Janice Alvarado

I would like discussion about singing together

20:16:17 Katy German, CDSS (she/her)

Janice, it's coming!

20:16:20 Perry Shafran

Our Tapestry exec director has started a weekly zoom session with the other dance leaders (not just folk dance) in the Minneapolis/St. Paul metro area. Very helpful! Lots of practical information being shared about dance spaces.

What is Donna's contact information?

20:18:58 Kathy Stagl

It's o the Mt Airy website

20:21:24 William Watson

dhunt dancer@aol.com was on the slide.

20:21:59 Herb Lape LITMA(Long Island Traditional Music Association)

Has anyone tried jamkazam?

20:22:04 amysmacbookair

We participate in virtual music sessions and limited outside porch music within a 2-3 person local bubble. We have found this to be a great time to nurture new local musicians, who are less intimidated with fewer people.

20:23:39 Michelle Kaminsky

20:23:52 Julia Bennett (Tor)

We are trying a caller-single musician or two-musician distanced outdoor thing... for seniors...also recorded for Zoom...

20:24:05 Joy Greenwolfe

My husband's band has tried Jamkazam in small groups and really like it. There's a learning curve, and the people who are not tech savvy had a hard time with it.

20:24:11 Eric Black (BACDS)

Musicians still must be in the same place. Apps like JamKazam still can't overcome the speed of light. There are techniques for collaboration by musicians in different places, but there are severe limitations.

20:24:28 Nick Cuccia

Herb, I have barbershopper friends who've been using Jamkazam for a while, and are looking into alternatives.

20:25:54 Alex

I'm one of the organizers of the Mt. Airy zoom dance; our committee talked about bringing only the caller and musicians (and better sound equipment!) together, but decided it was too much risk and might send the wrong message about in-person gatherings.

20:26:20 Patrick Dunlavey, Williamstown MA (he/him)

Our jam tested out jamulus on a dedicated server. Showed promise, but with warmer weather, outdoor, masked, social distanced jams are far nicer.

20:27:24 Judy Keller

We teach square and round dance (Choreographed ballroom).

It wasn't seattle. . .

20:29:29 Doug Plummer

From MA, it's all Seattle. It was north of us 50 miles.

20:29:33 Michelle Kaminsky

thank you!

20:29:40 Deb (Valley Folk Muisic)

We run a Zoom sing weekly. It's great! We meet more often and with singers from a greater geographic region.

20:29:54 Midge Olsen

We have a very large dance studio at Tapestry (Mpls) with excellent air circulation. We are considering letting a contra band (4 max) and caller be in the studio spaced far apart, running zoom from there. Still under consideration and subject to building preparations.

20:30:16 Sara Munz

New York Times is all behind a paywall

20:30:19 Julia Bennett (Tor)

Very encouraging words! But sobering as well.

20:30:20 Judy Keller

We're starting zoom classes.

20:30:41 Clara Stefanov-Wagner

NYTimes coverage of coronavirus is free

20:30:58 Kathy Stagl

NY

times makes cornona related info free. You can read alimited number of articles for free

20:31:03 Amanda Witman

You might have to register to see the free content.

20:31:33 Deb (Valley Folk Muisic)

NY Times also gives 10 free articles a month if you sign up for that.

20:31:39 Julia Bennett (Tor)

By the way, the Guardian newspaper in UK comes to your inbox free every day. You can donate. Decent journalism. And plenty of US coverage.

20:31:39 Rachael Shapiro

Wonderful !!!!

20:31:50 Sara Munz

Thank you all!

20:31:55 Doug Plummer

For several weeks the street next to us did a street sing. One song at 7pm, mostly pop songs, with several families participating. Over in 15 minutes.

20:31:58 Pamela Weems

Wow, that sounds wonderful!

20:32:29 Steve Epstein

You can also try putting the url into an incognito window to beat a paywall.

20:33:01 Gerald Blum

Technology Review is also making corona-virus-related articles freely accessible.

20:33:02 Suzanne Frank

Does this singing put CDSS at risk?

20:33:20 JoLaine and Dave, Gainesville, FL

Let's say a vaccine is available on December 31. How many people would need to have a vaccination before a group would be safe to gather. How would we know if they have the vaccination?

20:33:50 Judy Keller

they say 78% need to be vaccinated

20:34:20 Joseph Harrington

It's not so precise. 60-90% depending on the disease and vaccine.

20:34:28 Robert Lindauer

I'll bet that's at least another 9mo

20:34:48 Judy Keller

To be safe it may take longer

20:35:10 Joseph Harrington

An expert I know estimates 6 months at least from vaccine approval to general vaccination.

20:35:10 Amy Schroeder

It will take a while to know whether the vaccine works, and for it to be widely available

20:35:24 Julia Bennett (Tor)

Folks, you'll be best to be isolated until there's a vaccine. That's the reality. Next summer earliest.

20:35:26 Gerald Blum

We won't know for quite a while how long the vaccines stay effective.

20:35:41 Sheila Ginsberg

My doctor says don't be one of the first to get a vaccine. We don't know what the effects on our bodies will be medium-term. There's so much we still don't know.

20:35:43 Julia Bennett (Tor)

Thank you Will!

20:35:50 Perry Shafran

I feel that if the end of the year is extremely optimistic to have the vaccine available.

20:35:51 Joseph Harrington

Earliest possible approval is September, and that's optimistic

20:35:53 Jennifer Lish

How about having a long term goal for the CDSS community of being more inclusive of black and brown people?

### 20:36:00 Robert Lindauer

A question on CDSS insurance (which I emailed in, but no response): Is there now (or will there be) a "communicable disease exclusion" in our CDSS liability insurance?

### 20:36:35 Judy Keller

our square and round dance policy specifically excludes communicable diseases.

### 20:36:42 Julia Bennett (Tor)

As a Canadian, I do think trad dancers and singers are so informed, and in a position to assist with the November election in some way. This is an issue we worry about.

### 20:37:14 Janice Alvarado

Our group requires masks all the time even while singing. We have a mic which is passed around to the current song leader, sanitized between song leaders.

### 20:37:34 Harry Barnes

Amy.. Is there any scenario short of a vaccine where you would be comfortable restarting dancing?

### 20:38:05 Robert Lindauer

Thanks, Judy - I read my policy (thru CDSS) and didn't see a provision. But if it's not there now, I'll be our insurance carrier will add it shortly. I'm on the board of another arts organization (a community orchestra), where the carrier just notified us of adding such an exclusion.

### 20:38:14 Al Rogers

Has CDSS discussed taking a public position urging dance organizers to not conduct dancing events now and in the near future (especially dance weekends/weeks that are primarily indoors)? Or maybe you've already done that & I've missed it?

### 20:38:32 Lynn Feingold (she, her) President, FSSGB

The Folk Song Society of Greater Boston has links to online calendars listing concerts and sings - <https://www.fssgb.org/fssconc.shtml>

### 20:39:00 Deb (Valley Folk Muisic)

FSSGB does a great job!!

### 20:39:05 Karen Marshall

If anyone wanted more detailed information about the Skagit Valley Chorale super spreader event in March, here is the CDC report: [https://www.cdc.gov/mmwr/volumes/69/wr/mm6919e6.htm?s\\_cid=mm6919e6\\_w](https://www.cdc.gov/mmwr/volumes/69/wr/mm6919e6.htm?s_cid=mm6919e6_w)

### 20:39:05 Alex

Al -- they did <https://www.cdss.org/community/covid19/covid-19-statement-from-cdss#organizers>

### 20:39:09 Amy Schroeder

I'm trying to answer Harry's question and I can't come up with another scenario. Herd immunity, but that probably includes vaccines.

### 20:39:53 Julia Bennett (Tor)

The reality of aerosol knowledge and the protocol of a vaccine is, to step outside middle-class comfort for a moment, illness and death for the poor and working-class once cold weather hits. Sorry to be a downer but this has just hit me.

### 20:40:07 Howard Carlberg

Thank you Katy. I agree we need to let go of trying to reopen in December, and stay connected to each other in some positive way.

### 20:40:08 Al Rogers

Thanks Alex!

### 20:40:12 Lissa Bengtson, San Antonio

We've got a paltry email list and no phone numbers, because everyone was concerned about their privacy.

### 20:40:22 Pat Gingrich

Such as how to be more inclusive and diverse!

20:40:26 Judy Keller

mask to mask is another new theory. wearing masks but being close together.

20:40:29 Joseph Harrington

I agree with an earlier post that we spend some real effort making dance more inclusive.

20:40:44 Pat Gingrich

Things to work on: Diversity!

20:41:05 Robin Gustafson

Diversity!

20:41:17 Mark Crean

Has anyone found a way to give a quick corona virus at the entrance to a practice and not let anyone in unless testing negative?

20:41:46 Cecily Selling

Yes, diversity, antiracism

20:41:57 Lorraine Sutton

Can we get a contact ( email) for Will.?

20:42:08 Joy Greenwolfe

Also educate ourselves and our communities on the roots of our music and dance and play party traditions. A surprising amount has been whitewashed.

20:42:10 Julia Bennett (Tor)

I am doing graduate research this fall on community dance communities who are navigating \COVID - please email me if anyone would be interested in participating in the research! Julia.Bennett@bell.net - with York University

20:42:15 Eric Black (BACDS)

Instant testing is the Holy Grail, certainly not available now, and perhaps never will be.

20:42:48 Joseph Harrington

There is a home test in development at MIT, but it's not out yet and it will take time for production to ramp up.

20:42:50 Laurie Pietravalle West Michigan

Mark, you can be positive/infectious and test negative.

20:42:52 Cynthia Culbert

Portland Intown Contradance is doing a lot of work on antiracism and listing resources on their website.

20:42:54 Julia Bennett (Tor)

The online list is great - thanks CDSS!

20:42:57 Lissa Bengtson, San Antonio

Wow Mark, we can't even get the tests to people who are sick, spending hours in their car, sick as dogs, waiting for a test.

20:43:01 Gerald Blum

Re Mark's question: Israel has a test in development that gives results in ~1 min, but it needs more testing to see how accurate it really is.

20:43:08 Amy Schroeder

rapid covid tests are about 70% accurate

20:43:16 Amy Schroeder

and expensive

20:43:43 Patricia Campbell

Thanks Linda Henry

20:44:08 Jeremy Thorpe, RSCDS Boston

We've got Pictionary going on on the slide.

20:44:13 Lissa Bengtson, San Antonio

Thanks Linda!

20:44:21 Leslie Phillips

As a microbiologist I am extremely skeptical about any test that would give results in ~1 min.

20:44:30 Patricia McCollom

Thanks to CDSS for being so helpful in so many ways.

20:44:46 Patricia Campbell

Yes - thanks CDSS

20:46:02 Jim Morgan Pittsburgh

The Midwest Morris Ale did a great job of continuing the tradition online.

20:46:06 susie shoaf san francisco

CDSS description in general and how extensive across US?

20:46:17 Paul Ross

Is there any advice on the additional helpfulness of plastic face masks?

20:46:27 Janice Alvarado

What type of face mask may be better for singers?

20:46:33 Will Quale

(only barely skimming questions here: one answer, if you're interested in any of the articles I mention / link to, email me at towncommonsongs@gmail.com and I will find a way to help you.)

20:46:41 Gerald Blum

The reference to the Israeli test is posted on my Facebook page (which I can't right this moment).

20:46:58 Robin Gustafson

plastic face shields

20:47:04 Julia Bennett (Tor)

Question: would our experts give a safe distance, if any, for a short amount of gentle dancing or moving to music outdoors? Or DO NOT risk it? thank you

20:47:14 Kimbi Hagen

PLASTIC FACE SHIELDS

20:47:20 Leslie Phillips

I'm not on Facebook - if you find the link I'd be interested.

20:47:26 Suzanne Frank

we need a choreography workshop to work on Morris, contra and ECD like Sharon Green does with ECD???does

20:47:38 Susan Bickford

Best practice for how to easily incorporate a donation request into a Zoom meeting. Services like Crowdcast have this built in.

20:47:38 Maggie Bye

I know of someone who showed up to a dance with the flu; dancers are desperate to dance. How to address this. A thermometer and no admission with over 100?

20:47:40 Gerald Blum

Here's the link: <https://ajn.timesofisrael.com/israel-invents-one-minute-coronavirus-breath-test/>

20:47:42 Leslie Barr

Sarah Gowan's masks are the best!

20:47:46 Judy Keller

plastic face shields Asian markets and amazon

### 20:47:52 Mary Beth Emerton

Speech therapists are interested in a mask on line with a clear barrier (for teaching sounds).

### 20:47:54 Laurie Pietravallo West Michigan

CONTRACT TRACING - what percentage of positives are being traced, can the health department keep up

### 20:47:56 Perry Shafran

+1 for Sarah Gowan's masks!!

### 20:48:10 Deb (Valley Folk Muisic)

I can tell you it is easier to breathe with a paper mask vs a cloth one.

### 20:48:12 Julia Bennett (Tor)

and should any shared outdoor highly distanced activity have N95s or plastic face shields? Or maybe both? (the eyes are critical)

### 20:48:15 Carmen Giunta

What do you think of outdoor gatherings to stay connected, at least while the weather is good. I'm thinking of an event in a park or parking lot for relatively small dance communities while the weather is good?

### 20:48:15 Kalia Kliban, Sebastopol, CA

There are folks doing plastic face shields with 3d printing.

### 20:48:18 Kathy Stagl

N95 are very difficult to breathe while wearing so singing would be hard

### 20:48:21 Bob Fraley

We've heard that there are phone apps for contact tracing in China. Is there any contact app being rolled out in the US?

### 20:48:22 Howard Carlberg

We will loose some dancers when we come back. Given. How can we reach out now, and gather people who don't go back to whatever they were doing before, and invite them to dance with us?

### 20:48:57 Suzanne Frank

Face shields don't protect against aerosolized virus.

### 20:49:03 Judy Keller

I do a weekly newsletter and make 8 calls a weeks to those who are alone.

### 20:49:08 Annette Merritt

No contact tracing on my dance partner who had severe COVID.. there is no consistency in this country. We did it ourselves and notified every dance group(4 that week) and individuals.

### 20:49:58 Susan Bickford

Easy app that collects participant information (no touch / paper needed). Granted privacy is tricky.

### 20:50:18 Perry Shafran

I have heard of small outdoor dances - with people masked and dancers distanced. Is this a bad idea or an OK idea?

### 20:50:24 Andy Taylor-Blenis

Please do ask Amy about the face mask

### 20:50:29 Gerald Blum

There are apps being tried for contact tracing in the US, but there are major privacy questions.

### 20:50:33 Dianna Davis

Mask with clear window to work with The Deaf, Hard Of Hearing Amid The Pandemic: company created by a contra dancer in Chicago.

<https://www.newsy.com/stories/the-case-for-window-masks-for-better-communication/?fbclid=IwAR31kWU6m4x9ggzpSFUy3ItpKsBA7KwMPtaqhUUYd5tsQbwNNqp9G2036LU>

20:50:53 Marc Hartstein (RSCDS NJ, he/him)

We were asked if dancing outdoors with mandatory masks and cotton gloves would be feasible.

20:50:57 Amy Schroeder

sorry was the mask question about best ones for singing? I don't have an answer

20:51:42 Julia Bennett (Tor)

I think we should do dance moves in chairs and movig to music, generally, a la dance therapy, and it will include our older members who dropped out!

20:51:58 Perry Shafran

There are a fair number of contra dancers who are just not interested in zoom dancing. I'd like to keep them engaged though.

20:52:40 Joseph Harrington

I think it's really foolish for us to try to negotiate with the disease and cheat in a dance. It's not a good-faith negotiator. Just deal with the loss, be social online, and be safe. The dancing will come when it comes.

20:52:43 Suzanne Frank

we need to have choreography for 6 foot distancing outdoors with masks, for now. we will gradually return to original choreography.

20:52:45 Kalia Kliban, Sebastopol, CA

Once we are able to dance together again in person safely, do you think we'll still keep the online dances happening as well?

20:52:45 Chris Carroll

COMING UP ON Friday <http://contradance.link/ATLDistDance>

20:52:53 Elaine Bradtke

Remember, a lot of us spend all our working hours on zoom. We need some non-screen time

20:53:15 Kalia Kliban, Sebastopol, CA

Agreed, Elain, that Zoom fatigue is A Thing.

20:53:28 Kalia Kliban, Sebastopol, CA

Elaine, sorry

20:53:29 Chris Carroll

Both ECD and contra

20:53:29 Darlene Hamilton

Kalia that is a really interesting question

20:53:54 Suzanne Frank

Online dances will be maintained to reach those unable to attend dances due to other illnesses

20:53:58 Susan English

I see value in continuing online broadcasts even when we return to physical dances.

20:54:03 Emily Addison

I wonder if online dance is an emotionally safer way to try dancing for people intimidated by the dance hall! :)

20:54:03 Pat Gingrich

We have a noon zoom exercise group of contra friends.

20:54:14 Darlene Hamilton

It is nice to be friendly and dancing with friends across the country

20:54:24 Emily Addison

There is one coming for Canada although there is debate on how many people will get it.

20:54:26 Chris Carroll

I think all th eZoom meetings have potential after the pandemic to expand audiences. Maybe this will be an intermediate step between actual dances and virtual dances.

20:54:30 Robin Gustafson

How do we do self-policing on mask-wearing, etc.? As a former lifeguard at Pinewoods I'd say there's still a big problem with old white men wanting things to be the way they always were.

20:54:40 Jennifer Publicover

Here in Canada there has been talk of a contact tracing app by the federal government.

20:54:53 Lynn Feingold (she, her) President, FSSGB

I've been calling my singing friends and we've shared songs on the phone and sung together. there is no lag if it's just two of you.

20:55:05 Deb (Valley Folk Muisic)

Zoom singing is likely to continue occasionally because it includes people from farther away.

20:55:07 Eric Black (BACDS)

There was no contact tracing for me after I was diagnosed positive for COVID19.

20:55:14 Patricia Campbell

It has brought people together from all around the world who wouldn't be able to get to a dance locally.

20:55:15 Rachelle Cournoyer

In Quebec, the government is surveying the population for a phone tracing app.'

20:55:21 susie shoaf san francisco

nice to see smiles on zoom, vs. masks in person

20:55:31 Pamela Weems

THANK YOU! Whew....

20:55:34 Julia Bennett (Tor)

The online dancing is terrific for older and distanced or parenting or working people.... we must televise our dances when they resume!

20:55:41 Darlene Hamilton

We might continue on with the 5 Things web series however not every week and not on Tuesday night (which is dance class night)!

20:55:41 Judy Keller

Zooms are an emergency tactic - not a sustaining activity forever

20:55:53 Annette Merritt

Zoom can't compete with face to face

20:55:57 Suzanne Frank

online dances may help promote diversity

20:56:00 Annette Le Faive

Hi June in Ottawa, from Annette in Calgary (Chehalis)

20:56:19 Renee Camus

I need to go. Thank you all so much! Thanks CDSS!

20:56:20 Midge Olsen

There will be people who still feel very reluctant for health reasons to come in person for a while.

20:56:41 Sheila Ginsberg

Thank you for bringing us all together this way! Need to go now.

20:56:49 Eric Black (BACDS)

Keep in mind that even after in-person dancing is possible, there will still be some people who will avoid them for various reasons (e.g. high-risk categories). There will still be a need for some online dances, but not as many as now. Maybe 2 a week (different hemisphere time zones) will let people all over the world dance once a week.

20:56:54 Bob Peterson

both major phone makers have an \_exposure\_ kit, not \_contact\_ tracing, but despite the high privacy it enables it's not being taken up yet.

20:56:59 Jeanne Novak (she/her, Minneapolis)

our Zoom Morris VirtuAle included international dancers, but there wasn't as much actual dancing as a real-world Ale

20:57:17 Rich Dempsey

Country Line Dancing can be super distanced. :-o

20:57:21 Perry Shafran

I would find dancing in masks to be very challenging. I'd much rather do a zoom dance if I'm doing to be dancing not close to other people.

20:57:25 Noralyn Parsons

I agree that contra dancing is especially necessary to do in person! But international folk dance, and to some extent English, can be quite satisfying via zoom — and if we stop zooming, I'll miss dancing with my friends weekly in Chicago, British Columbia, TN, Okla, and CA!

20:57:36 Lynn Feingold (she, her) President, FSSGB

I also created a small private chat on Facebook for a few young singers I'm mentoring - we share recordings of songs we are working on and critique one another (when requested).

20:57:38 Dave Pokorney

good point eric

20:57:47 Suzanne Frank

Stockton Dance camp begins 7/11 around the world. free

20:57:57 Perry Shafran

Thanks everyone for the good discussion!

20:58:30 Eric Black (BACDS)

I have to leave because of a prior commitment. Looking forward to seeing the rest of tonight later on!

20:58:33 Julia Bennett (Tor)

Thank you CDSS for holding this chat!

20:58:42 Jennifer Lish

Thank you CDSS!!

20:58:43 Darlene Hamilton

Thank you CDSS for organizing this web chat!

20:58:52 Steven Zakon-Anderson

Thank you CDSS!

20:58:53 Glenda Jardel

Thank you!

20:58:54 Laura Estes

thanks!

20:58:55 Lindsay Verbil

Thank you all!

20:58:56 Kimbi Hagen

I'm really disappointed in the panelists response to the zoom dance question. Not all of us (older, immune-compromised, etc) will be willing or able to come back right away. I am suddenly feeling VERY isolated.

20:59:04 Paul Ross

Yes, thanks to CDSS (sorry, have to leave now)

20:59:12 Joy Greenwolfe

Have to leave for another event, but this has been good. Thanks to CDSS for making this happen.

20:59:12 Cis Hinkle

Thanks, CDSS et al, gotta go.

20:59:18 Kalia Kliban, Sebastopol, CA

Kimbi, I was surprised about it as well

20:59:25 Katy German, CDSS (she/her)

Kimbi, thank you for sharing that perspective.

21:10:28 Ann Nokes, PCDC

How many groups were there?

21:11:05 Dan Sabath (Sound and Fury Morris)

It would be good to have another session with small break outs.

21:11:09 Chris Carroll

thanks for hosting got to go..

21:11:12 Gaye Fifer

Are there resources for tech issues with setting up Zoom gatherings/dances?

21:11:13 Ken Schatz

Thank you all!

21:11:16 Deborah Denefeld - Kentucky

I think isolation is a huge, important issue. I mean we need to find ways to stay connected

21:11:17 Jeanne Novak (she/her, Minneapolis)

agreed, Dan

21:11:22 Deb (Valley Folk Muisic)

For future reference, our video was not enabled by the hosts.

21:11:27 Lissa Bengtson, San Antonio

Thank you!

21:11:29 Cara King

Thank you to the speakers and CDSS!

21:11:31 Kalia Kliban, Sebastopol, CA
