There is one class of men in this coun-try that ne-ver is men-tioned in

7
song. And now, since their trade is ad - van-cing they'll come out on

14
top be - fore long. They say that our sail - ors have dan-ger, and

21
like-wise our war-ri - ors bold. But there's none know the life of a dri-ver,

28
what he suf - fers with hard-ships and cold. With their pike - poles and

34
pea-vies and ba-teaus and all, they're sure to drive out in the spring. That's the

40
time! With their caulks on their boots as they get on the logs; And it's

45
hard to get o - ver their time.
